Application No.

Continuation Sheet (PTOL-303) 009/899,381

Continuation of 2. NOTE: The proposed amendment raises a new issue. Specifically, if target nucleic acid is labeled "prior to detecting step (d)," such fairly encompasses doing the labeling post (c), which would allow for unincorporated label to be present.

Continuation of 10. Other: Claim 16, last line, refers to "single producing system." Perhaps applicant had intended —signal producing system.— It is unclear if, as set forth in claim 21 the background probes are validated as being inactive, that they can result in a positive self-self hybridization assay (claim 23).
